ABSTRACT

Abstract is 9 points. Text is filled and justified. Abstract is 9 points. Text is filled and justified. Abstract is 9 points. Text is filled and justified. Abstract is 9 points. Text is filled and justified. Abstract is 9 points. Text is filled and justified. Abstract is 9 points. Text is filled and justified. Abstract is 9 points. Text is filled and justified. Abstract is 9 points. Text is filled and justified. Abstract is 9 points. Text is filled and justified. Abstract is 9 points. Text is filled and justified. Abstract is 9 points. Text is filled and justified. Abstract is 9 points. Text is filled and justified. Abstract is 9 points. Text is filled and justified.

1. 1st LEV. HDG, ALL CAPS, CENTERED, 12 PTS, BOLD

Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well.[1]

Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts.

1.1. 2nd Lev. Hdg, Initial Caps, Flushleft 12 pts, Bold

Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well.

[1] This is a footnote.

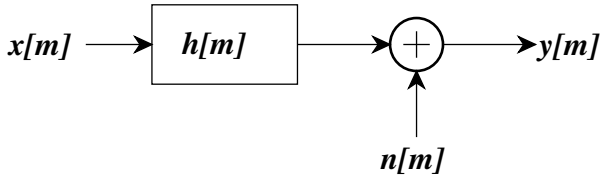

Figure 1: Tables and figures may be either single-column or double-column width, with 9 pt. filled caption below.

Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts.

Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts.

Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts.[1]

Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well.

Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts.

Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts.

1.2. Another Second Level Heading

Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well.

Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well.

- This it the itemize environment. Spread (space between items) is 1 line. Body text is 9 pts.
- Justification and hyphenation remain on as before [2].

Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. (see [3]).

Third-level heading can be in text in bold. The headingf is a character type, not a paragraph type Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well.

See, this still stands out. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts.

This is the enumerate environment. Spread (space between items) is 1 line. Body text is 9 pts., still.

1. Justification and hyphenation remain on, as before[2].

Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well.

2. A SECOND MAJOR HEADING

Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts.

Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts.Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts.

Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts.

2.1. Second Level Heading

Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts.

2.2. More of the Same

Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts.

COL. 1	COL. 2	COL. 3
1.2345	1.2322	3.23
53.65	33.123	867.

Table 1: Tables and figures may be either one column wide, or double column.

Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts.

Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts.

Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts.

Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts. Use margins as shown, and justify and fill the text as well. Normal body text is 9 pts.
